GTI Project No. 237597E

To: **S3 GROUP, LLC (CLIENT)**
ARIZONA STATE LAND DEPARTMENT (SELLER)
7144 East Stetson Drive, Suite 425
Scottsdale, Arizona 85251

Attention: **Ms. Shelby Duplessis**

Subject: Report of a Phase I Environmental Site Assessment (ESA) for the 293+ Acres within **ASLD SOUTH**, located Southwest of Rainbow Drive and Mohave Valley Highway (AZ- 95), Bullhead City, Mohave County, Arizona 86429.

Dear Ms. Duplessis:

In accordance with your request and authorization, Geotechnical Testing & Inspections, LLC (GTI) has completed the Phase I Environmental Site Assessment (ESA) at the Subject Property. This report was prepared for **S3 GROUP, LLC (CLIENT) & ARIZONA STATE LAND DEPARTMENT (SELLER)**. The work was completed in general accordance with GTI's Proposal No. SR237298E dated October 31, 2023.

The Phase I Environmental Site Assessment (ESA) is a general characterization of environmental concerns based on readily available information and site observations. GTI has performed this Phase I ESA in general conformance with the scope and limitations of ASTM Practice E-1527-21 for the Subject Property. Any exceptions to, or deletions from this practice are described in Section 1.4 of this report, Limitations and Exceptions of Assessment. The primary purpose for this Phase I Environmental Site Assessment (ESA) was to determine the potential for the presence of hazardous materials/waste contamination at the Subject Property, and to determine whether or not any *"Recognized Environmental Conditions" (REC)* exist at the Subject Property. It was **not** the purpose of the Phase I study to determine the actual presence, degree, or extent of contamination, if any, on the Subject Property.

The services performed by GTI on this project have been conducted with that level of care and skill ordinarily exercised by reputable members of the profession, practicing in the same locality, under similar budget and time restraints. No other warranty is expressed or intended.

This report is exclusively for the use and benefit of **S3 GROUP, LLC (CLIENT) & ARIZONA STATE LAND DEPARTMENT (SELLER)** and may not be relied upon by other persons or entities without written permission from GTI or the Client. The scope of services performed in execution of this evaluation may not be appropriate to satisfy the needs of other users, and the use or re-use of this document or the findings, conclusions, or recommendations is at the risk of said users.

Phase I Environmental Site Assessment (ESA)
ASLD SOUTH
S3 GROUP, LLC (CLIENT) &
ARIZONA STATE LAND DEPARTMENT (SELLER)

GTI Project No. 237597E

December 22, 2023

Page 3

The findings and opinions are relevant to the dates of GTI's site work and should not be relied on to represent conditions at substantially later dates.

ASTM Practice E1527-21, Section 4.6.3 states that the Phase I Environmental Site Assessment (ESA) must be:

Conducted or updated within 180 days of and prior to the date of acquisition of the Subject Property, and all other components of all appropriate inquiries must be conducted within one year prior to the date of acquisition of the Subject Property. The date of the report generally does not represent the date the individual components of all appropriate inquiries were completed and should not be used when evaluating compliance with the 180-day or 1-year all appropriate inquiries requirements. After that time, the Phase I Report will have to be updated.

The opinions included herein are based on information obtained during the study and GTI's experience. If additional information becomes available which might impact GTI's environmental conclusions, GTI requests the opportunity to review the information, reassess the potential concerns, and modify GTI's opinion, if warranted. If this assessment included a review of reports prepared by other consultants, it must be recognized that GTI has no responsibility for the accuracy of information contained therein. Although this assessment has attempted to identify the potential for contamination of the Subject Property, potential sources of contamination may have escaped detection due to:

- (1) the limited scope of this assessment,*
- (2) the inaccuracy of public records, and*
- (3) the presence of undetected and unreported environmental accidents.*

This Environmental Site Assessment (ESA) has revealed NO evidence of Recognized Environmental Conditions (REC) in connection with the Subject Property.

To the best of GTI's professional knowledge and belief, GTI's technical staff meets the definition of *environmental professionals* as defined in §312.10 of 40 CFR §312. GTI personnel have the specific qualifications based on education, training, and experience to assess a Subject Property of the nature, history, and setting of the Subject Property. GTI has developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

EXECUTIVE SUMMARY

Geotechnical Testing & Inspections, LLC (GTI) was retained to conduct a Phase I Environmental Site Assessment (ESA) for the 293± Acres within **ASLD SOUTH**, located southwest of Rainbow Drive and Mohave Valley Highway (AZ- 95), Bullhead City, Mohave County, Arizona 86429.

At the time of GTI’s site reconnaissance, the Subject Property was undeveloped land with two (2) large stormwater drainage channels. Bullhead City Parkway crosses the Subject Property along the southeast corner. There are several manhole covers along the western edge of the Subject Property along with a large white polyvinyl chloride pipe (PVC) and a high pressure gas line. Various pole mounted and ground mounted electrical transformers are located around the Subject Property along with electrical transmission lines.

As part of the Phase I Environmental Site Assessment (ESA), GTI reviewed the following information for Recognized Environmental Conditions (REC).

| ENVIRONMENTAL ITEMS | CONCERN | | DETAILS |
|---|----------------|-----------|----------------------|
| | YES | NO | |
| <i>Previous Report Review</i> | - | ✓ | <i>Section 1.5</i> |
| <i>General Site Description</i> | - | ✓ | <i>Section 2.1.1</i> |
| <i>Hazardous Materials - PFAS</i> | - | ✓ | <i>Section 2.1.4</i> |
| <i>Vapor Intrusion - Tier 1 Screening</i> | - | ✓ | <i>Section 2.1.5</i> |
| <i>Water Features</i> | - | ✓ | <i>Section 2.1.8</i> |
| <i>Pesticides and Herbicides</i> | - | ✓ | <i>Section 2.1.9</i> |
| <i>Limited Phase II Testing</i> | - | ✓ | <i>Section 2.2</i> |
| <i>Area Reconnaissance</i> | - | ✓ | <i>Section 2.3</i> |
| <i>Groundwater</i> | - | ✓ | <i>Section 3.2.1</i> |
| <i>Flood Plains</i> | ✓ | - | <i>Section 3.2.2</i> |
| <i>Surface Water</i> | - | ✓ | <i>Section 3.2.3</i> |

According to the Mohave County Assessor’s Office the Subject Property consists of one (1) Parcel.

S3 GROUP, LLC (CLIENT) &
ARIZONA STATE LAND DEPARTMENT (SELLER)

GTI Project No. 237597E

December 22, 2023

Page 6

Historical aerial photographs indicate the Subject Property was native undeveloped land going back prior to 1947 (*earliest available photograph*) up until sometime before 1992. In 1992 the manhole covers, PVC pipe and high pressure gas line were installed at the Subject Property. Around 2005 the large storm water drainage channel was constructed in the northeast portion of the Subject Property, followed by the construction of Bullhead Parkway and the storm water drainage channel in the southeast corner in 2008. The Subject Property would remain relatively unchanged from 2008 up to the present. As the Subject Property has not been used for agricultural purposes from the present and going back prior to 1947, agrochemical contamination is not of concern at the Subject Property.

The Phase I ESA for the Subject Property represents the product of GTI's professional expertise and judgement in the environmental consulting industry.

This Phase I ESA was conducted in accordance with the following:

- (1) *The United States Environmental Protection Agency (USEPA) Standards and Practices for All Appropriate Inquiries {(AAI), 40 CFR Part 312} and*
- (2) *Guidelines established by the American Society for Testing and Materials (ASTM) in the Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process / Designation E-1527-21 (ASTM Standard Practice E-1527-21).*

The purpose of this Phase I Environmental Site Assessment (ESA) was to identify the following with the intent to satisfy one of the requirements to qualify for the innocent landowner, contiguous Subject Property owner, or bona fide prospective purchaser limitations to CERCLA liability:

- ***Current Recognized Environmental Conditions (REC),***
- ***Historical Recognized Environmental Conditions (HREC), and***
- ***Controlled Recognized Environmental Conditions (CREC).***

During the course of this Phase I Environmental Site Assessment (ESA), the Subject Property **was** identified one (1) time in the governmental database search. There were a total of sixteen (16) environmental listings and one (1) Bureau of Indian Affairs (BIA) site identified within the minimum ASTM search distances. Six (6) of these environmental listings are located hydrologically down gradient from the Subject Property and therefore not considered a REC to the Subject Property (*B8, B9, B10, B11, B12, & 15*). As there are no current violations and all prior violations have received a "*Closed soil-only CoC levels meet RBCA Tier 1 standards*" status from the Arizona Department of Environmental Quality (ADEQ), the remaining environmental listings do not pose an REC to the Subject Property. For more detailed information on these environmental listings see section 6.0 of this report.

S3 GROUP, LLC (CLIENT) &
ARIZONA STATE LAND DEPARTMENT (SELLER)

GTI Project No. 237597E

December 22, 2023

Page 7

This Phase I Environmental Site Assessment (ESA) concluded the following:

- **Current Recognized Environmental Conditions (REC)**

*A 'Recognized Environmental Condition (REC)' as defined in the ASTM Standard, is (1) the presence of hazardous substances or petroleum products in, on or at the Subject Property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on or at the Subject Property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on or at the Subject Property under conditions that pose a material threat of a future release to the environment." De-minimis conditions are not recognized environmental conditions." This assessment has revealed **NO** evidence of Recognized Environmental Conditions (REC) at the Subject Property.*

- **Historical Recognized Environmental Conditions (HREC)**

*A 'Historical REC (HREC)' as defined in the ASTM Standard, is a previous release of hazardous substances or petroleum products affecting the Subject Property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities, without subjecting the Subject Property to any controls (for example activity and use limitations, or other property use limitations). This assessment has revealed **NO** evidence of Historical Recognized Environmental Conditions (HREC) at the Subject Property.*

- **Controlled Recognized Environmental Conditions (CREC)**

*A 'Controlled REC (CREC)' as defined in the ASTM Standard, is a recognized environmental condition affecting the Subject Property that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to implementation of controls (for example, activity and use limitations or other property use limitations). This assessment has revealed **NO** evidence of Controlled Recognized Environmental Conditions (CREC) at the Subject Property.*

Based on GTI's Phase I Environmental Site Assessment (ESA), GTI makes the following statement in general accordance with ASTM specifications:

ASLD SOUTH
S3 GROUP, LLC (CLIENT) &
ARIZONA STATE LAND DEPARTMENT (SELLER)

GTI Project No. 237597E

December 22, 2023

Page 8

GTI has performed a Phase I Environmental Site Assessment (ESA), in general conformance with the scope and limitations of ASTM Practice E-1527-21, for the **ASLD SOUTH Subject Property, Located southwest of Rainbow Drive and Mohave Valley Highway (AZ-95), Bullhead City, Mohave County, Arizona 86429. Any exceptions to, or deletions from, this practice is described in Section 1.4 of this report.**

This Environmental Site Assessment (ESA) has revealed NO evidence of Recognized Environmental Conditions (REC), Historical Recognized Environmental Conditions (HREC) or Controlled Recognized Environmental Conditions (CREC) in connection with the Subject Property.

Based on GTI's site reconnaissance, governmental database records review, and conversations with people familiar with the Subject Property, GTI does not believe any additional environmental testing or studies are needed at the Subject Property at this time.

Detailed Information is Provided in the Report

Page 11

1.0 INTRODUCTION

The Phase I ESA for the Subject Property represents the product of GTI's professional expertise and judgement in the environmental consulting industry. This Phase I Environmental Site Assessment (ESA) was conducted in general accordance with:

- (1) The United States Environmental Protection Agency (USEPA) Standards and Practices for All Appropriate Inquiries {(AAI), 40 CFR Part 312} and*
- (2) Guidelines established by the American Society for Testing and Materials (ASTM) in the Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process/Designation E-1527-21 (ASTM Standard Practice E-1527-21).*

1.1 Authorization and Site Location

In accordance with your request and authorization, Geotechnical Testing & Inspections LLC (GTI) has completed this Phase I Environmental Site Assessment (ESA) report for approximately 293± Acres within **ASLD SOUTH**. The Subject Property is located within the west half of Section 2, Township 19 North, Range 22 West of the Gila and Salt River Base and Meridian, Bullhead City, Mohave County, Arizona. A Subject Property location and general vicinity map is shown in Figure 1. Aerial photographs of the Subject Property are shown on Figure 2 and Figure 3.

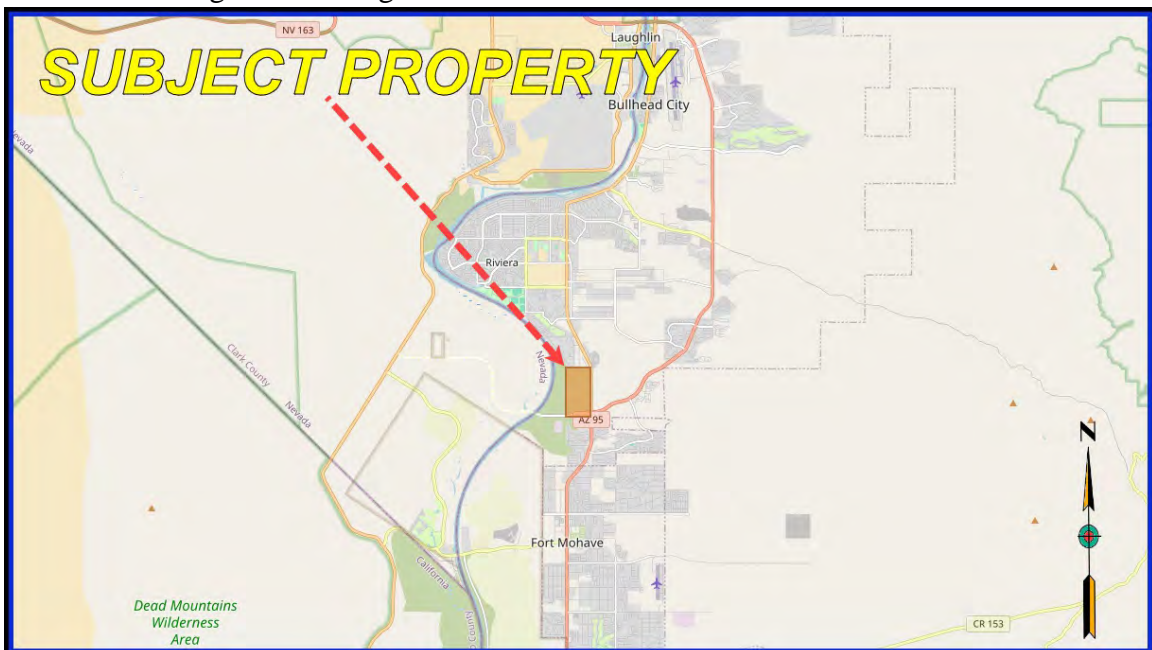

Figure 1 - Subject Property and General Vicinity Map

GTI Project No. 237597E

December 22, 2023

Page 13

1.2 Purpose

The purpose of this Phase I Environmental Site Assessment (ESA) was to identify the following with the intent to satisfy one of the requirements to qualify for the innocent landowner, contiguous property owner, or bona fide prospective purchaser limitations to CERCLA liability:

- ***Current Recognized Environmental Conditions (REC),***
- ***Historical Recognized Environmental Conditions (HREC), and***
- ***Controlled Recognized Environmental Conditions (CREC).***

According to GTI's client, this Phase I ESA was conducted as part of an environmental due diligence related to purchasing the Subject Property for single-family residential use.

While completion of a Phase I ESA is intended to constitute one of the requirements of all appropriate inquiry for purposes of Comprehensive Environmental Response Compensation and Liability Act (CERCLA) liability protections, it is not intended its use be limited to that purpose.

This practice is intended to permit a user to satisfy one of the requirements to qualify for the innocent landowner, contiguous property owner, or bona fide prospective purchaser on CERCLA liability (hereinafter, the "*landowner liability protections, 'or 'LLPs'*"): that is, the practice constitutes all appropriate inquiries into the previous ownership and uses of the property consistent with good commercial and customary practice as defined at *42 U.S.C. §9601(35)(B)*.

In addition, other properties within the approximate minimum search distance of the Subject Property, as specified by the ASTM document E-1527-21, Standard Practice for Environmental Site Assessments: *Phase I Environmental Site Assessment Process are examined for their possible environmental impact to the Subject Property.*

Figure 4 shows a Simplified REC logic flow chart to determine if the Subject Property results in a REC.

The scope consists of the following categories of work activities designated to meet the CERCLA/SARA appropriate inquiry responsibilities for a Phase I Environmental Site Assessment:

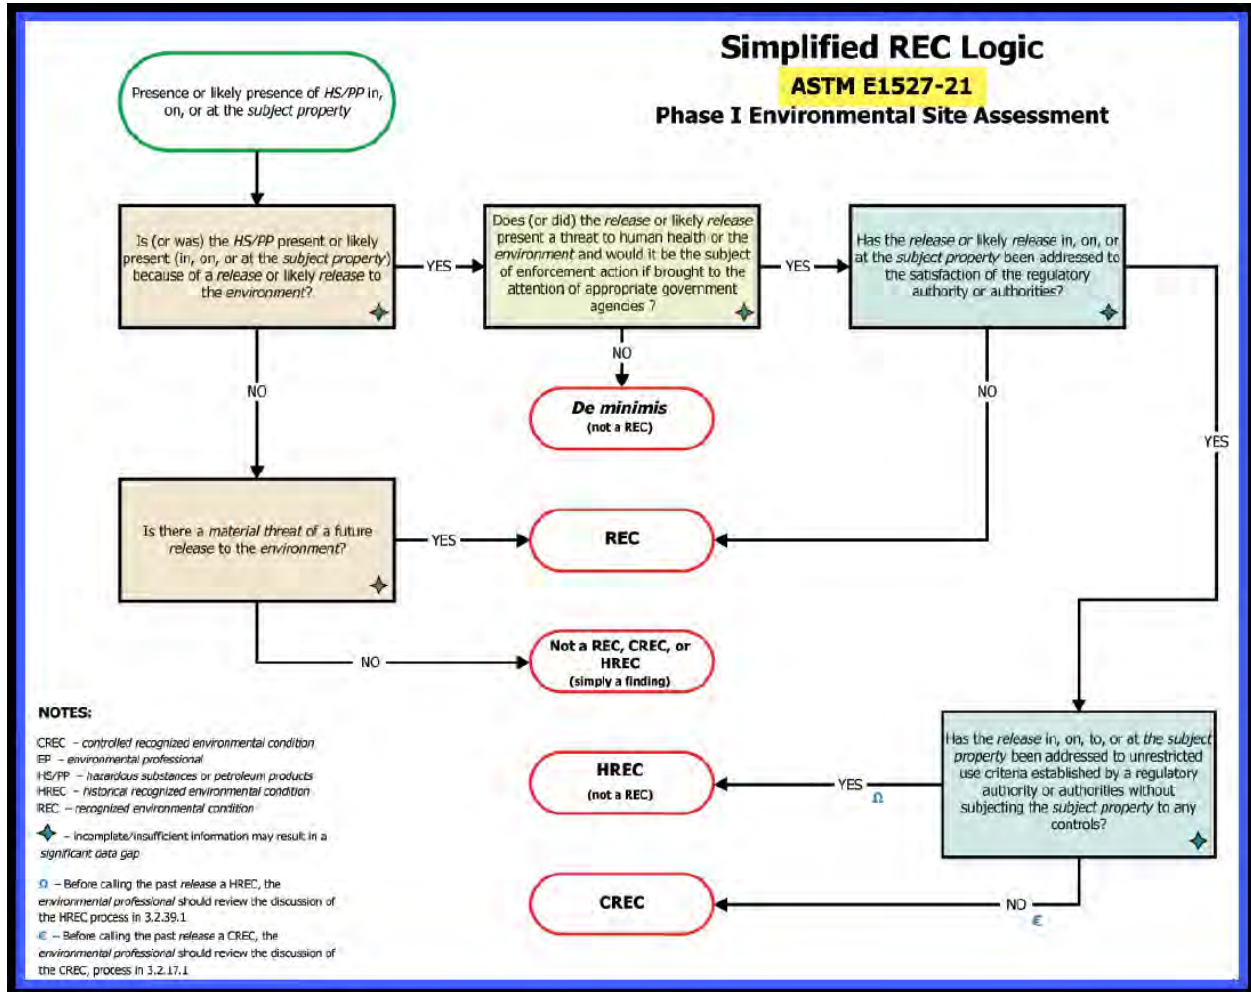

Figure 4 - Simplified REC Logic Flow Chart Provided by ASTM E-1527-21

1. A review of project information provided by the client, including historical Geotechnical and environmental reports for the Subject Property;
2. A site reconnaissance of the Subject Property and surrounding areas to visually assess current site utilization, and to check for indications of potential surface contamination;
3. A review of readily available historical aerial photographs, site maps, soil maps, street directories, s historical fire insurance (*Sanborn*) maps, site drainage and other sources to evaluate past land uses;
4. An evaluation of the Subject Property's soil characteristics, and hydrogeologic setting;

Phase I Environmental Site Assessment (ESA)
ASLD SOUTH
S3 GROUP, LLC (CLIENT) &
ARIZONA STATE LAND DEPARTMENT (SELLER)

GTI Project No. 237597E

December 22, 2023

Page 15

5. Interview with appropriate and reasonably available individuals knowledgeable about the Subject Property and environmental factors in the area of the Subject Property;
6. A review of the Subject Property's historical land utilization for indications of potential contamination or sources of contamination;
7. A review of government documents and interviews with appropriate government agencies concerning available pertinent environmental information for the Subject Property or within various radii of the Subject Property;
8. Preparation of this report, which relates the findings of these studies and presents GTI's conclusions and recommendations.

1.3 Special Terms and Conditions

This Phase I Environmental Site Assessment (ESA) report has been prepared for **S3 GROUP, LLC (CLIENT) & ARIZONA STATE LAND DEPARTMENT (SELLER)** and is subject to the terms and conditions of the contract. No other person or entity may rely on this report without prior written consent from GTI or the Client. The conclusions and recommendations of this report are based solely on the information gathered as a result of performing the Phase I Environmental Site Assessment scope and work process. The report reflects historical information and site conditions with respect to the Subject Property which existed at the time of completion of this report. Future changes in the site conditions of the Subject Property and future information generated regarding the Subject Property may result in a need to re-assess the environmental aspects of the Subject Property.

This report is held in the strictest confidence. Reproduction of this document requires the written permission of GTI and the Client. Duplication of this report for third party use is forbidden unless written approval is given by both the Client and GTI. Third parties may purchase this report with written consent from the Client, upon completion of a Letter of Reliance agreement with GTI.

1.4 Limitations and Exceptions of Assessment

A Phase I Environmental Site Assessment by definition is limited to the scope as outlined in the ASTM document E-1527-21, Standard Practice for Environmental Assessments: Phase I Environmental Site Assessment Process. Information sources used for this Phase I Environmental Site Assessment are limited to the following:

Phase I Environmental Site Assessment (ESA)
ASLD SOUTH
S3 GROUP, LLC (CLIENT) &
ARIZONA STATE LAND DEPARTMENT (SELLER)

GTI Project No. 237597E

December 22, 2023

Page 16

- *Visual assessment made during the site reconnaissance.*
- *Interviews with persons knowledgeable about the Subject Property, including owners, operators, and governmental officials.*
- *Review of available public environmental databases.*
- *Review of available aerial photographs.*
- *Review the USGS 7.5 Minute Topographical Map.*
- *Review of Fire Insurance Map*
- *Review of City Directories*
- *Review of readily available historical reports prepared for the site.*

Subjects **not** addressed by this report are as follows:

- *Hazardous or toxic materials and/or chemicals not presently regulated by federal, state, and local government agencies.*
- *Hazardous or toxic substances that occur naturally in air, soil, and/or water.*
- *Toxicity of substances found in residential environments (i.e. stored household products and miscellaneous building materials).*
- *Additional non-scope considerations are tabulated below:*

1. Asbestos-Containing Building Materials
2. Biological agents
3. Cultural and historic resources
4. Ecological resources
5. Endangered species
6. Health and safety
7. Indoor air quality unrelated to releases of hazardous substances of petroleum products in the environment
8. Industrial hygiene
9. Lead-Based Paint
10. Lead in Drinking Water
11. Mold or Microbial Growth conditions
12. PCB-containing building Material
13. Naturally-occurring Radon
14. Regulatory compliance
15. Substances not defined as hazardous substances
16. Wetlands

During GTI's site reconnaissance, materials on the Subject Property were not disturbed and underlying conditions were not observed. No physical environmental subsurface exploration for was conducted at the Subject Property.

Phase I Environmental Site Assessment (ESA)
ASLD SOUTH
S3 GROUP, LLC (CLIENT) &
ARIZONA STATE LAND DEPARTMENT (SELLER)

GTI Project No. 237597E

December 22, 2023

Page 17

It should be noted that this Phase I ESA does not include ASTM E-2600-10 “*Standard Guide for Vapor Encroachment Screening on Subject Property Involved in Real Estate Transactions*”. For assessment of potential “*Vapor Encroachment Conditions*” (VEC) and to determine if a “*Vapor Intrusion Condition*” (VIC) exists at this Subject Property. No such request were made by the Client. GTI can be retained to provide this service, if desired.

American Society for Testing Materials Standard Practice E-1527-21, Section 4.5.1, notes the following limiting concepts inherent in the use of Phase I Site Assessments that should be understood by those who use Phase I reports:

- (1) *No environmental site assessment can wholly eliminate uncertainty regarding the potential for environmental conditions in connection with a Subject Property.*
- (2) *All appropriate inquiries does not mean an exhaustive assessment of a Subject Property.*

There is a point at which the cost of information obtained or the time required to gather it outweighs the usefulness of the information. One of the purposes of ASTM specification E-1527-21 is to identify a balance between competing goals of limiting cost and time demands and the reduction of uncertainty about unknown conditions resulting from additional information.

1.5 Reviewed Reports Provided by Client or Available in GTI’s Library

As part of GTI’s Phase I Environmental Site Assessment, GTI typically reviews historical geotechnical and/or environmental reports at the Subject Property or adjacent properties provided to GTI by the client or available in GTI’s library. GTI reviewed the following report.

- **June 1995 - Groundwater Quality Study for Bullhead City and Northern Mohave Valley, Arizona** - The report was prepared by Prepared by Patti Tuve and Joseph Giannelli for the *Arizona Department of Environmental Quality (ADEQ)*.
- **April 5, 2009 - Phase I Environmental Site Assessment for Clearwater Shores (APN 222-04-003 & 004)** - The report was prepared by Preferred Environmental Services as Project No. 1457-09004. The report was prepared for the **Federal Deposit Insurance Corporation**. *“This assessment has revealed NO evidence of recognized environmental conditions in connection with the Subject Property.”*

2.0 SITE DESCRIPTION AND RECONNAISSANCE OBSERVATIONS

An experienced GTI environmental site assessor conducted a site and border zone area reconnaissance of the Subject Property and the readily accessible areas of the adjacent sites. GTI's site reconnaissance did not include an inspection of existing nearby structures. The primary purpose of the site reconnaissance was to observe visual indications of present or past activities, which have or could have contributed to contamination on the Subject Property, and to interview people familiar with the Subject Property. The site reconnaissance was conducted on foot, while the area reconnaissance was conducted by use of a vehicle. Details of GTI's site and border zone area reconnaissance are provided in the following sections.

2.1 Subject Property/Project Description and Reconnaissance

2.1.1 General

A site reconnaissance was performed on December 7, 2023 by a GTI Project Manager, experienced in conducting Environmental Site Assessments. At the time of GTI's site reconnaissance, the Subject Property was undeveloped land with two (2) large stormwater drainage channels. Bullhead City Parkway crosses the Subject Property along the southeast corner. There are several manhole covers along the western edge of the Subject Property along with a large white polyvinyl chloride pipe (PVC) and a high pressure gas line. Various pole mounted and ground mounted electrical transformers are located around the Subject Property along with electrical transmission lines. Observations around the Subject Property are discussed below:

- **North** of the Subject Property is Rainbow Drive followed by a residential subdivision with storage units to the northwest, Mohave Storage, a vacant parcel, a boat repair and storage facility, a mini storage facility with some shops and offices fronting Rainbow Drive, a vacant parcel, Motel Sun Shine, Mohave Valley Highway (AZ-95), and the Fiesta RV Resort.
- **South** of the Subject Property is Bullhead Parkway with adjoining drainage channel followed by Bullhead City Utilities, native undeveloped desert land, the Mohave Crossroads Shopping Center (Target, Kohl's, Ross Dress for Less, Pet Smart, Culver's, and Discount Tire among other smaller stores), Mohave Valley Highway (AZ-95), and the McCormick Professional Center.
- **East** of the Subject Property is Mohave Valley Highway (AZ-95) followed by the Fiesta RV Resort, vacant desert land, Mohave Community College, vacant desert land, native undeveloped desert land and the McCormick Professional Center.

Phase I Environmental Site Assessment (ESA)
ASLD SOUTH
S3 GROUP, LLC (CLIENT) &
ARIZONA STATE LAND DEPARTMENT (SELLER)

GTI Project No. 237597E

December 22, 2023

Page 19

- *West of the Subject Property is undeveloped desert land, Anderson Auto Group Field house, Bullhead Parkway, and Bullhead Utilities followed by the Colorado River.*

According to the Mohave County Assessor's Office the Subject Property consists of the following Parcel:

- *Parcel No. 222-03-006 (293± Acres) - located in the west half of Section 2, Township 19 North, Range 22 West of the Gila and Salt River Base and Meridian, Bullhead City, Mohave County, Arizona. This Parcel is Registered to the State of Arizona.*

Historical aerial photographs indicate the Subject Property was native undeveloped land going back prior to 1947 (*earliest available photograph*) up until sometime before 1992. In 1992 the manhole covers, PVC pipe and high pressure gas line were installed at the Subject Property. Around 2005 the large storm water drainage channel was constructed in the northeast portion of the Subject Property, followed by the construction of Bullhead Parkway and the storm water drainage channel in the southeast corner in 2008. The Subject Property would remain relatively unchanged from 2008 up to the present. As the Subject Property has not been used for agricultural purposes from the present and going back prior to 1947, agrochemical contamination is not of concern at the Subject Property.

2.1.2 Photographic Record and Aerial Video Recordings

Numerous representative color photographs and aerial video recordings have been taken of the overall Subject Property. These photographs and videos are in GTI's files and available for viewing, if desired. Select photographs are included in various sections of this report.

2.1.3 Underground and/or Above Ground Storage Tanks

GTI did **not** observe any Underground Storage Tanks (USTs) or Above Ground Storage Tanks (ASTs) at the Subject Property during GTI's site reconnaissance.

2.1.4 Hazardous Materials

GTI did **not** observe any hazardous chemicals within the Subject Property. It should be noted that chemicals such as (*Perfluoroalkyl and Polyfluoroalkyl -PFAS*) are identified as "*Emerging Contaminants*" and these chemicals have been under scrutiny for possible regulations as hazardous substances by the federal EPA for many years. The EPA has not yet listed PFAS as a federally regulated hazardous substance under CERCLA. At the present time ASTM E-1527-21 does not require PFAS to be included in the Phase I ESA, unless specifically requested by the Client. No such requests were made.

GTI Project No. 237597E

December 22, 2023

Page 20

2.1.5 PCB Electrical Transformers and Other Utility Companies

GTI observed both ground-mounted and pole-mounted electrical transformers running along Mohave Valley Parkway (AZ-95) and along Bullhead City Parkway within the Subject Property. No evidence of damage or leakage was observed at the electrical transformers. GTI spoke with Mohave Electrical Cooperative (MEC) on December 7, 2023, who provides electricity to the area and they indicated they have removed the PCBs from their electrical transformers and replaced them with mineral oil. Thus, they do not have any PCB-related environmental issues. The other utilities at or servicing the Subject Property are:

- Sewer - *None (Future Bullhead City)*
- Water - *Arizona - American Water Company*
- Police - *Bullhead City*
- Fire - *Bullhead City*
- Solid Waste - *None (Future Bullhead City)*

2.1.6 Drywells

GTI did not observe any drywells within the 293± Acres encompassing the Subject Property.

2.1.7 Water Features

GTI did not observe any signs of wetlands (*i.e., open water, marshes, and marsh-type vegetation*) at the Subject Property. The majority of the Subject Project lies within FEMA Flood Zone “AO”. The Colorado River is located west of the Subject Property. It should be noted there are two (2) large stormwater drainage channels within the Subject Property.

2.1.8 Pesticides and Herbicides

GTI did not observe the use of any pesticides or herbicides at the Subject Property during GTI’s site reconnaissance. Historical aerial photographs indicate the Subject Property was native undeveloped land going back prior to 1947 (*earliest available photograph*) up until sometime before 1992. In 1992 the manhole covers, PVC pipe and high pressure gas line were installed at the Subject Property. Around 2005 the large storm water drainage channel was constructed in the northeast portion of the Subject Property, followed by the construction of Bullhead Parkway and the storm water drainage channel in the southeast corner in 2008. The Subject Property would remain relatively unchanged from 2008 up to the present time. As the Subject Property has not been used for agricultural purposes from the present and going back prior to 1947, agrochemical contamination is not of concern at the Subject Property.

2.2 Area Reconnaissance

The area reconnaissance was performed to assist in evaluating the potential for adjacent land uses, which could have adversely impacted the site. The area reconnaissance was conducted by traversing the area on foot, and viewing the surrounding areas from the Subject Property and by using a drone. The sites surrounding the Subject Property include the following:

2.2.1 North

North of the Subject Property is Rainbow Drive followed by a residential subdivision with storage units to the northwest, Mohave Storage, a vacant parcel, a boat repair and storage facility, a mini storage facility with some shops and offices fronting Rainbow Drive, a vacant parcel, Motel Sun Shine, Mohave Valley Highway (AZ-95), and the Fiesta RV Resort. GTI does not believe that activities at these locations result in a REC to the Subject Property. An aerial photograph looking north of the Subject Property is shown on Figure 5.

Figure 5 - Aerial Photograph Looking North of the Subject Property

2.2.2 South

South of the Subject Property is Bullhead Parkway with adjoining drainage channel followed by Bullhead City Utilities, native undeveloped desert land, the Mohave Crossroads Shopping Center (*Target, Kohl's, Ross Dress for Less, Pet Smart, Culver's, and Discount Tire among other smaller stores*), Mohave Valley Highway (AZ-95), and the McCormick Professional Center. GTI does not believe that activities at these locations result in a REC to the Subject Property. An aerial photograph looking south of the Subject Property is shown on Figure 6.

Figure 6- Aerial Photograph Looking South of the Subject Property

2.2.3 East

East of the Subject Property is Mohave Valley Highway (AZ-95) followed by the Fiesta RV Resort, vacant desert land, Mohave Community College, vacant desert land, native undeveloped desert land and the McCormick Professional Center. GTI does not believe that activities at these locations result in a REC to the Subject Property. An aerial photograph looking east of the Subject Property is shown on Figure 7.

December 22, 2023
Page 23

2.2.4 West

West of the Subject Property is undeveloped desert land, Anderson Auto Group Field house, Bullhead Parkway, and Bullhead Utilities followed by the Colorado River. GTI does not believe that activities at these locations result in a REC to the Subject Property. An aerial photograph looking west of the Subject Property is shown on Figure 8.

Figure 8 - Aerial Photograph Looking West of the Subject Property

3.0 LOCAL SOIL AND HYDROGEOLOGIC SETTING

A consideration of surface and subsurface drainage and soil conditions are of interest since they provide an indication of how off-site contaminants, if present, could be transported to the Subject Property. Readily available hydrogeologic information was reviewed to evaluate surface and subsurface characteristics of the Subject Property and the general vicinity. This section summarizes the results of the hydrogeologic evaluation.

3.1 Soil Conditions

The USDA National Resources Conservation Service Soil Survey Soil Map of the area including the Subject Property was reviewed and the soils within the site were identified as Lagunita Sand (*Sands within flood plains*); Holtville Silty Clay, 0 to 1 percent slopes (*Silty Clays overlying Sands within flood plains*); and Carrizon-Riverwash complex, 3 to 8 percent slopes MLRA 30 (*Gravelly Sands within flood plains*). These soils may be classified in general accordance with the Unified Soil Classification System (USCS) as primarily granular Silty Sands (SM), Poorly Graded SAND (SP), with some Clayey SAND (SC) and cohesive Silty CLAY (CL) soil types. These soil types range from having relatively high permeability and those having relatively slow permeability.

3.2 Hydrogeology

3.2.1 Groundwater

GTI reviewed the Arizona Groundwater Well Data for wells located in the vicinity of the Subject Property as no well were identified on the Subject Property. Groundwater flow was determined to be in a south to southwest direction based on ADEQ *Groundwater Quality Study for Bullhead City and Northern Mohave Valley, Arizona* dated June 1995.

Five (5) wells, located within ½± mile of the Subject Property, had groundwater at depths ranging between 14± feet and 61± feet measured between 1952 and 1969 when the wells were drilled. No nearby wells had more recent water level data available.

2.2 Flood Plains

According to the Federal Emergency Management Agency (FEMA) Flood Map Database for Mohave County, Arizona and Incorporated Areas, the Subject Property *is largely* located within the 100 year flood zone (Zone “AO”). GTI reviewed FEMA Panel Nos. 04015C4753G dated 11/18/2009, 04015C4754G dated 11/18/2009, 04015C4761H dated 2/20/2013, and 04015C4762H dated 12/2/2015. A partial copy of the FEMA Flood Insurance Rate Map is shown on Figure 9.

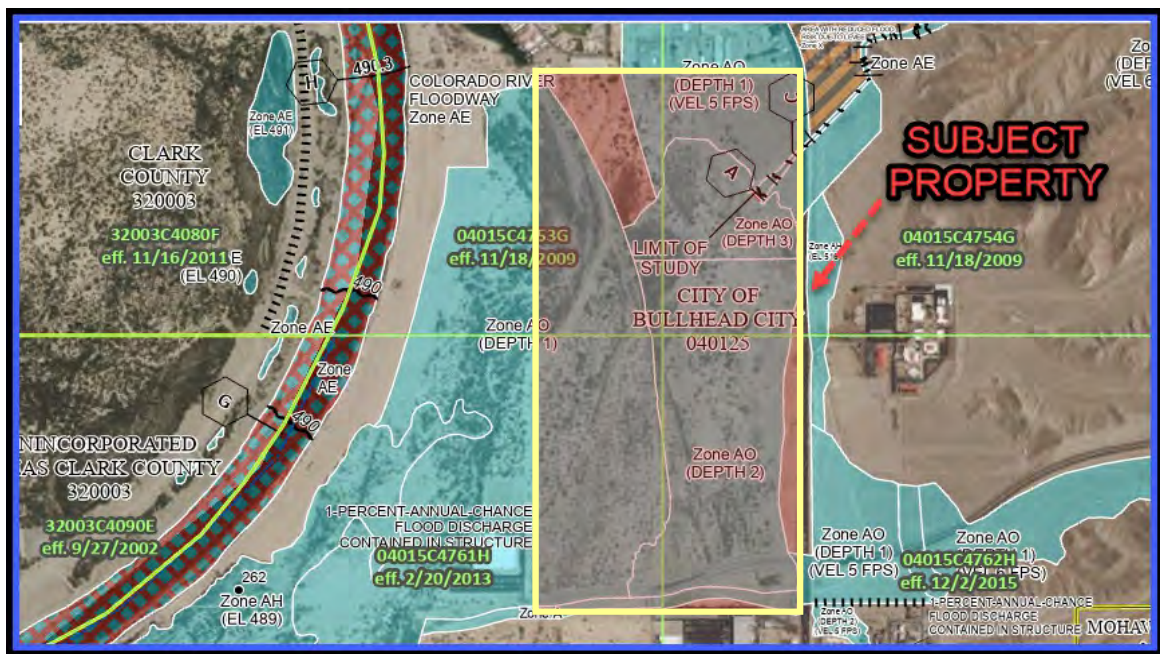

Figure 9 - FEMA Flood Insurance Map

The majority of the Subject Property is identified as being located within flood Zone “AO” which is defined as *“River or stream flood hazard areas, and areas with a 1% or greater chance of shallow flooding each year, usually in the form of sheet flow, with an average depth ranging from 1 to 3 feet. These areas have a 26% chance of flooding over the life of a 30-year mortgage. Average flood depths derived from detailed analyses are shown within these zones.”* Flood insurance **is** required in Zone “AO”.

A small area within the northwest portion of the Subject Property, a small portion along the eastern boundary of the Subject Property, and a small portion at the southeast corner of the Subject Property is identified as being located within flood zone “X” which is defined as *“areas of 0.2% annual chance flood; areas of 1% annual chance food with average depth of less than 1 foot”*. Flood insurance **is** not required in Zone “X”.

Development of the Subject Property requires addressing the flood issues. The FEMA Flood Insurance Maps show flood depths ranging from 1 to 3 feet across the majority of the Subject Property. These flood plains are not considered to be a REC to the Subject Property.

3.2.3 Surface Water

According to a 2021 United States Geologic Survey Map (USGS) *Davis Dam SE, AZ 7.5 Minute Series Topographic Map*, surface water is flowing in a southwesterly direction. Surface elevations across the Subject Property were ranging from El: 537± feet located in the northeast portion of the Subject Property to El: 493± feet located along the southwest portion of the Subject Property. A copy of a portion of the USGS Topographical Map which includes the Subject Property is shown on Figure 10.

 Page 26

4.0 RESULTS OF SITE HISTORICAL REVIEW

The following available information was reviewed to ascertain the historical uses of the site and immediately adjacent properties, and to evaluate the presence of activities of potential environmental concern:

- *Google Earth - Photos dated 1992 to 2023*
- *Flood Control District of Mohave County*
- *Mohave County Assessors Map - Photos dated 2013 to 2023*
- *Davis Dam SE, Quadrangle, Arizona - Maricopa 7.5 minute series topographic maps (dated 2021)*
- *USGS Historical Topographical Maps - 1886 to 2021*
- *Historicalaerials.com - 1947 to 1980*

4.1 Aerial Photographic Review

Aerial photographs from 1947 to 2023 were reviewed. The table below identifies GTI's observations from these aerial photographs.

4.2 Sanborn Maps

GTI retained the services of EDR to determine if any *Sanborn* maps were available for the Subject Property. EDR provided a Certified Letter dated December 4, 2023 indicating that **no** *Sanborn* Maps were available for this Subject Property. A copy of the Certified letter is included in the Appendix of this report.

4.3 Cole Directories

GTI also retained the Services of EDR to determine if any City Directory information was available for the Subject Property. The City Directories went back from 1992 to 2020. GTI reviewed the City Directories for the Subject Property and nearby facilities and found one owners/tenant listing that wasn't identified in the Governmental Database search results provided in section 6.0, that could result in a REC to the Subject Property. The *Foam and Froth Car Wash* located at 3120 AZ-95, Bullhead City. As there are no environmental listings or violations associated with this car wash it does not result in an REC to the Subject Property. The Appendix includes the City Directory information.

4.4 General Site History

Based on the review of the historical aerial photographs, GTI's site reconnaissance, and conversations with people familiar with the Subject Property, indicate that the Subject Property was native undeveloped land going back prior to 1947 (*earliest available photograph*) up until sometime before 1992. In 1992 the manhole covers, PVC pipe and high pressure gas line were installed at the Subject Property. Around 2005 the large storm water drainage channel was constructed in the northeast portion of the Subject Property, followed by the construction of Bullhead Parkway and the stormwater drainage channel in the southeast corner in 2008. The Subject Property would remain relatively unchanged from 2008 up to the present time.

4.5 Conversation with People Familiar with the Site

4.5.1 Mohave Electrical Cooperative (MEC)

GTI spoke with representatives of Mohave Electrical Cooperative (MEC) on December 7, 2023 and GTI was told that they provide electrical power to the Subject Property and the general vicinity, and no longer use PCBs in their electrical transformers. They have replaced the PCB with mineral oil and thus do not have any PCB related environmental issues. Therefore the electrical transformers in the area do not pose a REC to the Subject Property.

4.5.2 Ms. Shelby Duplessis (Client)

GTI spoke with Ms. Shelby Duplessis a representative for **S3 GROUP, LLC (CLIENT)** on December 4, 2023, who provided authorization for this Phase I Environmental Site Assessment (ESA). Ms. Duplessis was not aware of any environmental issues at the Subject Property and provided GTI with available information.

4.6 Data Failure

Data failure is the inability to identify the earlier of the Subject Property's first use or to 1940 through the review of the reasonably ascertainable and likely to be useful standard historical sources. No data failure was encountered during this Phase I Environmental Site Assessment (ESA).

4.7 Impact on Purchase Price

The all appropriate inquiries' final rule requires that the prospective Subject Property owner consider whether or not the difference in purchase price and fair market value is due to the presence of releases or threatened releases of hazardous substances. GTI was not provided

with any information as to the purchase price of the Subject Property or fair market value. GTI does not believe that the site has any environmental concerns which would reduce the value of the Subject Property.

5.0 ENVIRONMENTAL LIENS, SPECIALIZED KNOWLEDGE OR EXPERIENCE

The ASTM Standards on Environmental Site Assessments for Commercial Real Estate, Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process, E1527-21 (*approved November 1, 2021*), requires that the user provide information regarding environmental liens, specialized knowledge, or experience, as follows:

Users must take into account their specialized knowledge to identify conditions indicative of releases or threatened releases. If the user has any specialized knowledge or experience that is material to recognized environmental conditions in connection with the Subject Property, the user should communicate any information based on such specialized knowledge or experience to the environmental professional. The user should do so before the environmental professional does the site reconnaissance. According to the ASTM document, the term User is defined as follows:

User: *The party seeking to perform an environmental site assessment of the Subject Property. A user may include, without limitation, a purchaser of a Subject Property, a potential tenant of Subject Property, an owner of Subject Property, a lender, or a Subject Property manager [i.e., the Client].*

No information regarding Voluntary Environmental Mitigation Use Restriction (VEMUR), Declaration of Environmental Use Restriction (DEUR), or environmental liens of any kind, or specialized knowledge or experience was provided to GTI by the owner.

6.0 RESULTS OF GOVERNMENT AGENCY/DOCUMENTS REVIEW

6.1 Regulatory Listed Facilities

A review of State and Federal regulatory agencies was performed by a regulatory information retrieval service. They did so to determine if the Subject Property, or nearby facilities are listed as a record of actual or potential environmental impact, or are under investigation for any environmental contamination. A map showing the Subject Property and the areas identified in the governmental regulatory search is shown on Figure 11. A listing of all the databases reviewed is shown on the following pages. The full governmental database search is included in the appendix.

Phase I Environmental Site Assessment (ESA)
ASLD SOUTH
S3 GROUP, LLC (CLIENT) &
ARIZONA STATE LAND DEPARTMENT (SELLER)

GTI Project No. 237597E

December 22, 2023

Page 38

During the course of this Phase I Environmental Site Assessment (ESA), the Subject Property **was** identified one (1) time in the governmental database search. There were a total of sixteen (16) environmental listings and one (1) Bureau of Indian Affairs (BIA) site identified within the minimum ASTM search distances. Six (6) of these environmental listings are located hydrologically down-gradient from the Subject Property and therefore not considered a REC to the Subject Property (*B8, B9, B10, B11, B12, & 15*). The remaining environmental listings are discussed below:

The listing at the Subject Property is discussed below:

- **Map ID No. "1"** is for the **Crushsd Event Center**, located at the Subject Property. The listing is for an EMAP (*Environmental Media Assessment and Planning*) associated with an area used for recreation at the Subject Property. As there are no violations associated with this listing, it does not pose an REC to the Subject Property.

The regulatory site listing is discussed below:

- **Fort Mojave Reservation** is listed as an Indian Reservation located approximately $\frac{1}{2}\pm$ to $1\pm$ mile southwest of the Subject Property. The Bureau of Indian Affairs (BIA) was listed as the responsible government agency. As there are no violations associated with this listing it does not result in a REC to the Subject Property.

The fifteen (15) other listings are discussed below:

- **Map ID No. "2"** is for **Bennett's & Son Inc.** located at 1615 Rainbow Drive, approximately less than an $\frac{1}{8}\pm$ mile north of the Subject Property. The listing is for RCRA NonGen/NLR (*RCRA Conditionally Exempt Small Quantity Generator*), FINDS (*Facility Index System*) and ECHO (*Enforcement and Compliance History*). This facility is listed as Brick, Stone, and related Construction Material Wholesalers, Other Material Dealers, Gasoline Stations, and Gasoline Stations with Convenience Stores. As there are no violations associated with this listing it does not result in a REC to the Subject Property.
- **Map ID No. "A3"** is for **Colorado River Aggregate LLC** located approximately less than an $\frac{1}{8}\pm$ mile north of the Subject Property. The listing is for US Mines. This facility is listed as Potable Crushing Plant #1 and as being permanently abandoned. As there are no violations associated with this listing it does not result in a REC to the Subject Property.

ASLD SOUTH
S3 GROUP, LLC (CLIENT) &
ARIZONA STATE LAND DEPARTMENT (SELLER)

GTI Project No. 237597E

December 22, 2023

Page 39

- **Map ID Nos. "A4" and "A5"** are for **Portable Crushing Plant #1** located at 1621 Rainbow Drive approximately less than an $\frac{1}{8}\pm$ mile north of the Subject Property. The listings are for US Mines and Abandoned Mines. This facility is listed as Potable Crushing Plant #1 operated by Colorado River Aggregate LLC. A citation was issued on April 1, 2009 which was closed in 2009. A second citation was issued on March 15, 2010 and a \$100 fine paid closing the citation on March 15, 2010. The site was listed as being abandoned by 2010. As there are no open violations associated with this listing it does not result in a REC to the Subject Property.
- **Map ID No. "6"** is for **Fiesta RV Resort** located at 3190 Highway 95, approximately $\frac{1}{8}\pm$ to $\frac{1}{4}\pm$ mile north-northeast of the Subject Property. The listing is for FINDS (*Facility Index System*), AZ EMAP (*Environmental Media Assessment and Planning*), and AZ WWFAC (*Waste Water Facility*). This facility is listed as an active RV Park with a waste water facility. As there are no violations associated with this listing it does not result in a REC to the Subject Property.
- **Map ID No. "7"** is for **United Parcel Service** located at 2913 Easy Street, approximately $\frac{1}{8}\pm$ to $\frac{1}{4}\pm$ mile north of the Subject Property. The listing is for RCRA-VSQS (*RCRA Very Small Quantity Generator*), FINDS (*Facility Index System*), AZ EMAP (*Environmental Media Assessment and Planning*), and AZ MANIFEST (*Hazardous Waste Generator index from Transporters*). This facility is listed as a Couriers and Express Delivery Services. As there are no violations associated with this listing it does not result in a REC to the Subject Property.
- **Map ID No. "C13" and "C14"** are for **Bullhead Frame and Body** located at 2907 Friendly Place' approximately $\frac{1}{8}\pm$ to $\frac{1}{4}\pm$ mile north of the Subject Property. These listings are for AZ EMAP (*Environmental Media Assessment and Planning*), AZ Enforcement, RCRA-SQG (*RCRA Small Quantity Generator*), CA HAZNET and AZ MANIFEST (*Hazardous Waste Generator index from Transporters*). This facility is listed as an Auto/Vehicle Repair Facility. An enforcement notice was issued on 2/2/2020 and closed on 02/21/2020. As there are no open violations associated with these listings they do not result in a REC to the Subject Property.
- **Map ID No. "16"** is for **City of Bullhead City - Fire Station #5**. located at 3025 Highway 95 (AZ-95), approximately $\frac{1}{4}\pm$ to $\frac{1}{2}\pm$ mile north of the Subject Property. The listing is for AZ LUST, AZ UST, & AZ EMAP. There is one (1) UST associated with this listing. Tank ID No.1 is for a 2,000-gallon double walled asphalt coated or bare steel tank used for diesel that was permanently closed and removed on 5/27/1993. There is one

S3 GROUP, LLC (CLIENT) &
ARIZONA STATE LAND DEPARTMENT (SELLER)

GTI Project No. 237597E

December 22, 2023

Page 40

LUST case associated with this listing. LUST No. 2970.01 was reported on 8/17/93 and received a “Closed soil-only CoC levels meet RBCA Tier 1 standards” status from ADEQ on 2/1/01. As there are no active violations and all prior violations have received a “Closed soil-only CoC levels meet RBCA Tier 1 standards” status from ADEQ, it does not pose a REC to the Subject Property.

It should be noted that there were no Orphan sites identified in the EDR report. GTI does not believe any additional environmental testing or studies are needed at the Subject Property at this time.

This Phase I Environmental Site Assessment (ESA) concluded the following:

- **Current Recognized Environmental Conditions (REC)**

*A ‘Recognized Environmental Condition (REC)’ as defined in the ASTM Standard, is (1) the presence of hazardous substances or petroleum products in, on or at the Subject Property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on or at the Subject Property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on or at the Subject Property under conditions that pose a material threat of a future release to the environment.” De-minimis conditions are not recognized environmental conditions.” **This assessment has revealed NO evidence of Recognized Environmental Conditions (REC) at the Subject Property.***

- **Historical Recognized Environmental Conditions (HREC)**

*A ‘Historical REC (HREC)’ as defined in the ASTM Standard, is a previous release of hazardous substances or petroleum products affecting the Subject Property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities, without subjecting the Subject Property to any controls (for example activity and use limitations, or other property use limitations). **This assessment has revealed NO evidence of Historical Recognized Environmental Conditions (HREC) at the Subject Property.***

- **Controlled Recognized Environmental Conditions (CREC)**

*A ‘Controlled REC (CREC)’ as defined in the ASTM Standard, is a recognized environmental condition affecting the Subject Property that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to implementation of controls (for example, activity and use limitations or other property use limitations). **This assessment has revealed NO evidence of Controlled Recognized Environmental Conditions (CREC) at the Subject Property.***

Phase I Environmental Site Assessment (ESA)
ASLD SOUTH
S3 GROUP, LLC (CLIENT) &
ARIZONA STATE LAND DEPARTMENT (SELLER)

GTI Project No. 237597E
December 22, 2023
Page 41

Based on GTI's site reconnaissance, review of governmental databases, and historical aerial photographic review, GTI does not believe any past or present activities at the Subject Property have posed an environmental threat or REC to the Subject Property.

6.2 Water Well Information

The Water Well Information was provided by the United States Geological Survey (USGS), the Federal FRDS Public Water Supply System, and the state well database. The database contains information for over 1,000,000 wells and other sources of groundwater, which these agencies have studied, used, or otherwise had reason to document through the course of research.

The Regulatory Listed Facilities search reported **sixty-seven (67)** water wells located within a one (1) mile radius of the Subject Property, but no wells within the Subject Property. A map showing the Subject Property and wells in the general vicinity is shown on Figure 12.

None of the wells identified in the general vicinity of the Subject Property have any citations or any other environmental issues. GTI does not believe any of these wells result in a REC to the Subject Property.

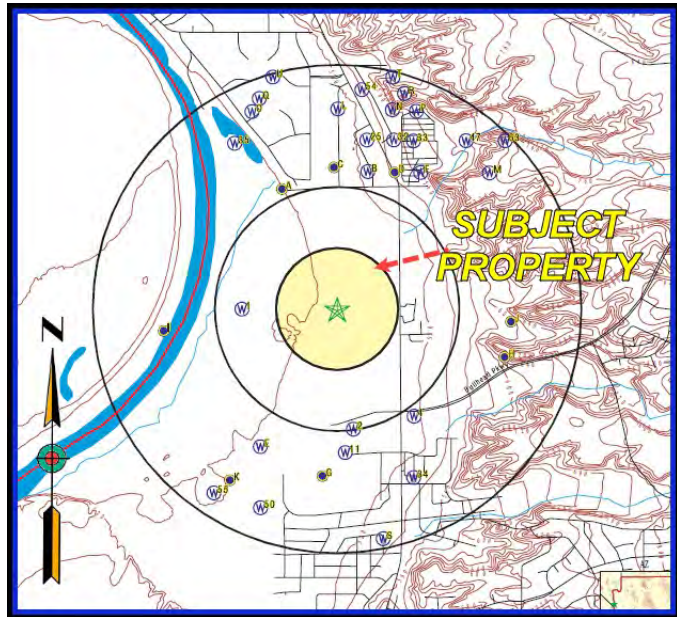

Figure 12 - USGS Well Location Map

7.0 CONCLUSIONS AND RECOMMENDATIONS

GTI has performed a Phase I Environmental Site Assessment (ESA), in general conformance with the scope and limitations of ASTM Practice E-1527-21, for the 293± Acres within **ASLD SOUTH**, located southwest of Rainbow Drive and Mohave Valley Highway (AZ- 95), Bullhead City, Mohave County, Arizona 86429. Any exceptions to, or deletions from, this practice is described in Section 1.4 of this report.

Phase I Environmental Site Assessment (ESA)
ASLD SOUTH
S3 GROUP, LLC (CLIENT) &
ARIZONA STATE LAND DEPARTMENT (SELLER)

GTI Project No. 237597E

December 22, 2023

Page 42

This Environmental Site Assessment (ESA) has revealed **NO** evidence of Recognized Environmental Conditions (REC), Historical Recognized Environmental Conditions (HREC) or Controlled Recognized Environmental Conditions (CREC) in connection with the Subject Property.

Based on GTI's site reconnaissance, governmental database records review, and conversations with people familiar with the Subject Property, GTI does not believe any additional environmental testing or studies are needed at the Subject Property at this time.

8.0 LIMITATIONS

Geotechnical Testing & Inspections, LLC's (GTI) professional services have been performed using that degree and skill ordinarily exercised, under similar circumstances, by reputable geotechnical and environmental engineers practicing in this or similar localities. Neither GTI nor their agents or employees shall be jointly, severally, or individually liable to the owner in excess of the compensation to be paid pursuant to this agreement, by any reason of any act or omission, including breach of contract or negligence not amounting to a willful or intentional wrong. No other warranty, expressed or implied, is made. This environmental site assessment report was prepared in accordance with the generally accepted standard of practice in Arizona at the time the report was written.

This report is exclusively for the use and benefit of **S3 GROUP, LLC (CLIENT) & ARIZONA STATE LAND DEPARTMENT (SELLER)** and may not be relied upon by other persons or entities without written permission from GTI. The scope of services performed in execution of this evaluation may not be appropriate to satisfy the needs of other users, and the use or re-use of this document or the findings, conclusions, or recommendations is at the risk of said users. The findings and opinions are relevant to the dates of GTI's site work and should not be relied on to represent conditions at substantially later dates.

ASTM Practice E-1527-21, Section 4.6.3 states that the Phase I Environmental Site Assessment (ESA) must be:

Conducted or updated within 180 days of and prior to the date of acquisition of the Subject Property, and all other components of all appropriate inquiries must be conducted within one year prior to the date of acquisition of the Subject Property. The date of the report generally does not represent the date the individual components of all appropriate inquiries were completed and should not be used when evaluating compliance with the 180-day or 1- year all appropriate inquiries requirements. After that time, the Phase I Report will have to be updated.

Page 43

The opinions included herein are based on information obtained during the study and GTI's experience. If additional information becomes available which might impact GTI's environmental conclusions, GTI requests the opportunity to review the information, reassess the potential concerns, and modify GTI's opinion, if warranted. If this assessment included a review of reports prepared by other consultants, it must be recognized GTI has no responsibility for the accuracy of information contained therein. Although this assessment has attempted to identify the potential for contamination of the Subject Property, potential sources of contamination may have escaped detection due to:

- (1) the limited scope of this assessment,*
- (2) the inaccuracy of public records, and*
- (3) the presence of undetected and unreported environmental accidents.*

9.0 QUALIFICATIONS OF INVESTIGATORS

The field portion of this Phase I Environmental Site Assessment (ESA) and report were conducted and prepared by Chris Squires, Environmental Scientist/Senior Project Manager. The report was reviewed by Randy Smith, P.E., Environmental & Geotechnical Department Manager and Dr. Peter Fleming, P.E., President of GTI. A brief summary of their qualifications follows:

9.1 Chris Squires - Environmental Scientist/GTI Senior Project Manager

Mr. Squires is an Environmental Scientist/Senior Project Manager with Geotechnical Testing & Inspections (GTI). Mr. Squires has a B.S. degree from Wichita State University in Geology. Mr. Squires has performed numerous Phase I Environmental Site Assessment studies as well as Phase II Site Characterization Studies over the last two years in Arizona and Texas, and has nine years of field experience in the oil and gas industry throughout Kansas, Oklahoma, New Mexico and Texas.

9.2 Randy Smith, P.E. - Environmental Department Manager

Mr. Smith is the Geotechnical and Environmental Department Manager for Geotechnical Testing & Inspections (GTI). Mr. Smith holds a degree in geological engineering and is a registered civil engineer in Arizona. Mr. Smith has performed hundreds of Phase I Environmental Site Assessment studies as well as Phase II Site Characterization Studies over the last 20 years. Projects include master planned communities, commercial development, multifamily and raw land. In addition, Mr. Smith is an AHERA certified building inspector and has OSHA 40 hour Hazardous Materials training. He has practiced geotechnical engineering in Arizona for over 24 years. Projects include master planned communities, residential subdivisions, parking structures, multifamily, warehouse, office, retail, bridges,

Page 44

airport , solar power facilities, electrical substation, retaining walls, cut and fill slopes, geophysical reports, percolation, and highway. Foundation types he has provided services for include spread foundations, post-tensioned foundations, drilled shaft, and helical pier. He is American Concrete Institute (ACI) certified in Field and Concrete Lab I and Arizona Technical Testing Institute (ATTI) Laboratory and Field (Soil, Aggregate, and Asphaltic Concrete).

9.3 Dr. Peter Fleming, P.E. - President

Dr. Fleming is President of Geotechnical Testing & Inspections (GTI) and is responsible for all the technical and administrative aspects of the company. He holds a Master's degree and Ph.D., in civil engineering with a special focus on environmental and geotechnical engineering. Dr. Fleming has over 39+ years of professional experience focused in the areas of geotechnical and environmental engineering related projects. He is a registered professional engineer in Arizona and sixteen other states across the United States. He is fully EPA AHERA-certified to direct all asbestos identification, evaluation and abatement activities. He is also an EPA-approved radon mitigator, as well as a California Environmental Site Assessor. Dr. Fleming is responsible for the firm's Environmental Services Division, including training and technical consultation. Dr. Fleming's expertise and experience in these areas have been utilized in soil and groundwater remediation, groundwater modeling and tracking of contaminant migration, Environmental Site Assessments, and underground storage tank evaluations and removal. Dr. Fleming provided review of several thousand Phase I Environmental Site Assessments, several hundred Phase II Site characterization studies, including soil gas surveys, and numerous Phase III Remediation studies. In addition, Dr. Fleming has completed several thousand geotechnical studies nationally and internationally, involving high-rise structures, dams, lakes, interstate highways, bridges, airports, resorts, marinas, numerous retaining structures, levees, and shoring systems, geophysical explorations, synthetic liners, vibrations studies, in-situ testing, etc. Many of the projects involved evaluation of shallow and numerous types of deep foundation systems, slope stability analysis, retaining walls, settlement and seepage calculations, etc. Dr. Fleming also provided expert testimony on numerous geotechnical and environmental issues. Dr. Fleming is nationally known for his innovative and cost saving solutions to complicated geotechnical problems. Dr. Fleming is a Certified Microbial Consultant from the American Indoor Air Quality Council. Dr. Fleming is a Level I and Level II Mold Inspector as well as a Certified Mold Instructor with the Indoor Environmental Standards Organization (IESO).

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527 - 21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E2247 - 16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E1528 - 22) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

TARGET PROPERTY INFORMATION

ADDRESS

OFF HIGHWAY 95 AND BULLHEAD PARKWAY
BULLHEAD CITY, AZ 86442

COORDINATES

Latitude (North): 35.0624180 - 35° 3' 44.70"
Longitude (West): 114.5936460 - 114° 35' 37.12"
Universal Transverse Mercator: Zone 11
UTM X (Meters): 719444.1
UTM Y (Meters): 3882415.5
Elevation: 503 ft. above sea level

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

EXECUTIVE SUMMARY

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal RCRA generators

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 07/24/2023 has revealed that there are 2 RCRA-SQG sites within approximately 0.25 miles of the target property.

| <u>Equal/Higher Elevation</u> | <u>Address</u> | <u>Direction / Distance</u> | <u>Map ID</u> | <u>Page</u> |
|--|-------------------------|--------------------------------|---------------|-------------|
| TARGET STORE #T2368 EPA ID:: AZR000505941 | 3699 HIGHWAY 95 | S 1/8 - 1/4 (0.218 mi.) | B11 | 39 |
| BULLHEAD FRAME AND B EPA ID:: AZR000001743 | 2907 FRIENDLY PL | N 1/8 - 1/4 (0.226 mi.) | C14 | 70 |

RCRA-VSQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-VSQG list, as provided by EDR, and dated 07/24/2023 has revealed that there are 2 RCRA-VSQG sites within approximately 0.25 miles of the target property.

Lists of state and tribal leaking storage tanks

AZ LUST: The Leaking Underground Storage Tank Incident Reports contain an inventory of reported leaking underground storage tank incidents. The data come from the Department of Environmental Quality's LUST File Listing by Zip Code.

A review of the AZ LUST list, as provided by EDR, and dated 07/13/2023 has revealed that there is 1 AZ LUST site within approximately 0.5 miles of the target property.

ADDITIONAL ENVIRONMENTAL RECORDS

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 07/24/2023 has revealed that there are 2 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

INDIAN RESERV: This map layer portrays Indian administered lands of the United States that have any area equal to or greater than 640 acres.

A review of the INDIAN RESERV list, as provided by EDR, and dated 12/31/2014 has revealed that there is 1 INDIAN RESERV site within approximately 1 mile of the target property.

| <u>Equal/Higher Elevation</u> | <u>Address</u> | <u>Direction / Distance</u> | <u>Map ID</u> | <u>Page</u> |
|-------------------------------|----------------|-----------------------------|---------------|-------------|
| FORT MOJAVE RESERVAT | | SW 1/2 - 1 (0.841 mi.) | 0 | 9 |

US MINES: Mines Master Index File. The source of this database is the Dept. of Labor, Mine Safety and Health Administration.

A review of the US MINES list, as provided by EDR, has revealed that there are 2 US MINES sites within approximately 0.25 miles of the target property.

| <u>Lower Elevation</u> | <u>Address</u> | <u>Direction / Distance</u> | <u>Map ID</u> | <u>Page</u> |
|---|---------------------------|------------------------------|---------------|-------------|
| COLORADO RIVER AGGRE Database: US MINES, Date of Government Version: 08/01/2023 Mine ID:: 0203230 | | N 0 - 1/8 (0.022 mi.) | A3 | 13 |
| PORTABLE CRUSHING PL Database: MINES VIOLATIONS, Date of Government Version: 07/05/2023 | 1621 RAINBOW DRIVE | N 0 - 1/8 (0.022 mi.) | A4 | 14 |

EXECUTIVE SUMMARY

ABANDONED MINES: An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

A review of the ABANDONED MINES list, as provided by EDR, and dated 06/13/2023 has revealed that there are 2 ABANDONED MINES sites within approximately 0.25 miles of the target property.

| <u>Lower Elevation</u> | <u>Address</u> | <u>Direction / Distance</u> | <u>Map ID</u> | <u>Page</u> |
|-----------------------------|---------------------------|------------------------------|---------------|-------------|
| PORTABLE CRUSHING PL | 1621 RAINBOW DRIVE | N 0 - 1/8 (0.022 mi.) | A4 | 14 |
| PORTABLE CRUSHING PL | | N 0 - 1/8 (0.022 mi.) | A5 | 16 |

FINDS: The Facility Index System contains both facility information and "pointers" to other sources of information that contain more detail. These include: RCRIS; Permit Compliance System (PCS); Aerometric Information Retrieval System (AIRS); FATES (FIFRA [Federal Insecticide Fungicide Rodenticide Act] and TSCA Enforcement System, FTTS [FIFRA/TSCA Tracking System]; CERCLIS; DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes); Federal Underground Injection Control (FURS); Federal Reporting Data System (FRDS); Surface Impoundments (SIA); TSCA Chemicals in Commerce Information System (CICS); PADS; RCRA-J (medical waste transporters/disposers); TRIS; and TSCA. The source of this database is the U.S. EPA/NTIS.

A review of the FINDS list, as provided by EDR, and dated 11/03/2023 has revealed that there is 1 FINDS site within approximately 0.001 miles of the target property.

| <u>Lower Elevation</u> | <u>Address</u> | <u>Direction / Distance</u> | <u>Map ID</u> | <u>Page</u> |

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The Arizona Unified Repository for Informational Tracking of the Environment (AZURITE) is a database used by the Arizona Department of Environmental Quality (ADEQ) for environmental enforcement and compliance reporting to the Permit and Compliance System (PCS) and to the Air Facility System Universal Interface (AFS-UI).

|--------------------|---|
| Waste Code: | D039 |
| Waste Description: | Tetrachloroethylene |
| Waste Code: | P001 |
| Waste Description: | 2h-1-Benzopyran-2-One, 4-Hydroxy-3-(3-Oxo-1-Phenylbutyl)-, & Salts, When Present At Concentrations Greater Than 0.3% (Or) Warfarin, & Salts, When Present At Concentrations Greater Than 0.3% |
| Waste Code: | P042 |
| Waste Description: | 1,2-Benzenediol, 4-[1-Hydroxy-2-(Methylamino)Ethyl]-, (R)- (Or) Epinephrine |
| Waste Code: | P046 |
| Waste Description: | Alpha,Alpha-Dimethylphenethylamine (Or) Benzeneethanamine, Alpha, Alpha-Dimethyl- |
| Waste Code: | P075 |
| Waste Description: | Nicotine, & Salts (Or) Pyridine, 3-(1-Methyl-2-Pyrrolidinyl)-,(S)-, & Salts |
| Waste Code: | P081 |
| Waste Description: | 1,2,3-Propanetriol, Trinitrate (R) (Or) Nitroglycerine (R) |
| Waste Code: | U002 |
| Waste Description: | 2-Propanone (l) (Or) Acetone (l) |
| Waste Code: | U034 |
| Waste Description: | Acetaldehyde, Trichloro- (Or) Chloral |
| Waste Code: | U035 |
| Waste Description: | Benzenebutanoic Acid, 4-[Bis(2-Chloroethyl)Amino]- (Or) Chlorambucil |
| Waste Code: | U044 |
| Waste Description: | Chloroform (Or) Methane, Trichloro- |
| Waste Code: | U058 |
| Waste Description: | 2h-1,3,2-Oxazaphosphorin-2-Amine, N,N-Bis(2-Chloroethyl)Tetrahydro-, 2-Oxide (Or) Cyclophosphamide |
| Waste Code: | U072 |
| Waste Description: | Benzene, 1,4-Dichloro- (Or) P-Dichlorobenzene |
| Waste Code: | U122 |
| Waste Description: | Formaldehyde |
| Waste Code: | U129 |
| Waste Description: | Cyclohexane, 1,2,3,4,5,6-Hexachloro-, (1alpha, 2alpha, 3beta, 4alpha, 5alpha, 6beta)- (Or) Lindane |
| Waste Code: | U134 |
| Waste Description: | Hydrofluoric Acid (C,T) (Or) Hydrogen Fluoride (C,T) |
| Waste Code: | U150 |
| Waste Description: | L-Phenylalanine, 4-[Bis(2-Chloroethyl)Amino]- (Or) Melphalan |
| Waste Code: | U154 |
| Waste Description: | Methanol (l) (Or) Methyl Alcohol (l) |

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

AZ AUL: DEUR Database

Activity and use limitations include both engineering controls and institutional controls. DEUR and VEMUR sites. DEUR: Declaration of Environmental Use Restriction. A restrictive land use covenant that is required when a property owner elects to use an institutional (i.e., administrative) control or engineering (i.e., physical) control as a means to meet remediation goals. The DEUR runs with and burdens the land, and requires maintenance of any institutional or engineering controls. VEMUR: Voluntary Environmental Mitigation Use Restriction. A restrictive land use covenant that, prior to July 18, 2000, was required when a property owner elected to remediate the property to non-residential uses. Effective July 18, 2000, the DEUR replaced the VEMUR as a restrictive use covenant.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

PFAS RCRA MANIFEST: PFAS Transfers Identified In the RCRA Database Listing

To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: PFAS, PFOA, PFOS, PERFL, AFFF, GENX, GEN-X (plus the VT waste codes). These keywords were searched for in the following text fields: Manifest handling instructions (MANIFEST_HANDLING_INSTR), Non-hazardous waste description (NON_HAZ_WASTE_DESCRIPTION), DOT printed information (DOT_PRINTED_INFORMATION), Waste line handling instructions (WASTE_LINE_HANDLING_INSTR), Waste residue comments (WASTE_RESIDUE_COMMENTS).

PFAS ATSDR: PFAS Contamination Site Location Listing

PFAS contamination site locations from the Department of Health & Human Services, Center for Disease Control & Prevention. ATSDR is involved at a number of PFAS-related sites, either directly or through assisting state and federal partners. As of now, most sites are related to drinking water contamination connected with PFAS production facilities or fire training areas where aqueous film-forming firefighting foam (AFFF) was regularly used.

PFAS NPDES: Clean Water Act Discharge Monitoring Information

Any discharger of pollutants to waters of the United States from a point source must have a National Pollutant Discharge Elimination System (NPDES) permit. The process for obtaining limits involves the regulated entity (permittee) disclosing releases in a NPDES permit application and the permitting authority (typically the state but sometimes EPA) deciding whether to require monitoring or monitoring with limits. Caveats and Limitations: Less than half of states have required PFAS monitoring for at least one of their permittees and fewer states have established PFAS effluent limits for permittees. New rulemakings have been initiated that may increase the number of facilities monitoring for PFAS in the future.

PFAS ECHO FIRE TRAINING: Facilities in Industries that May Be Handling PFAS Listing

A list of fire training sites was added to the Industry Sectors dataset using a keyword search on the permitted facility's name to identify sites where fire-fighting foam may have been used in training exercises. Additionally, you may view an example spreadsheet of the subset of fire training facility data, as well as the keywords used in selecting or deselecting a facility for the subset. as well as the keywords used in selecting or deselecting a facility for the subset. These keywords were tested to maximize accuracy in selecting facilities that may use fire-fighting foam in training exercises, however, due to the lack of a required reporting field in the data systems for designating fire training sites, this methodology may not identify all fire training sites or may potentially misidentify them.

PFAS PART 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration's document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Source: American Hospital Association, Inc.

Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services

Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes

Source: National Institutes of Health

Telephone: 301-594-6248

Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on private school locations in the United States.

Daycare Centers: Child Care Facilities & Group Homes

Source: Department of Health Services

Telephone: 602-674-4220

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

USGS TOPOGRAPHIC MAP

| | |
|----------------------|---------------------------|
| Target Property Map: | 50000279 DAVIS DAM SE, AZ |
| Version Date: | 2021 |

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General West

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

| | |
|---|-------------------------|
| <u>Flood Plain Panel at Target Property</u> | <u>FEMA Source Type</u> |
| 32003C4090E | FEMA FIRM Flood data |
| <u>Additional Panels in search area:</u> | <u>FEMA Source Type</u> |

NATIONAL WETLAND INVENTORY

| | |
|------------------------------------|--|
| <u>NWI Quad at Target Property</u> | <u>NWI Electronic Data Coverage</u> |
| DAVIS DAM SE | YES - refer to the Overview Map and Detail Map |

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

| | |
|----------------|------------|
| Search Radius: | 1.25 miles |
| Status: | Not found |

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

| <u>MAP ID</u> | <u>LOCATION FROM TP</u> | <u>GENERAL DIRECTION GROUNDWATER FLOW</u> |
|---------------|-------------------------|---|
| Not Reported | | |

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: Holtville

Soil Surface Texture: silty clay

Hydrologic Group: Class D - Very slow infiltration rates. Soils are clayey, have a high water table, or are shallow to an impervious layer.

Soil Drainage Class: Well drained

Hydric Status: Unknown

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

| Soil Layer Information | | | | | | | |
|------------------------|-----------|-----------|----------------------|--|---|--|----------------------|
| Layer | Boundary | | Soil Texture Class | Classification | | Saturated hydraulic conductivity micro m/sec | Soil Reaction (pH) |
| | Upper | Lower | | AASHTO Group | Unified Soil | | |
| 1 | 0 inches | 1 inches | silty clay | Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils. | FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt. | Max: 141 Min: 42 | Max: 8.4 Min: 7.4 |
| 2 | 1 inches | 22 inches | clay | Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils. | FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt. | Max: 141 Min: 42 | Max: 8.4 Min: 7.4 |
| 3 | 22 inches | 31 inches | silty clay | Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils. | FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt. | Max: 141 Min: 42 | Max: 8.4 Min: 7.4 |
| 4 | 31 inches | 42 inches | very fine sandy loam | Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils. | FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt. | Max: 141 Min: 42 | Max: 8.4 Min: 7.4 |

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

| Soil Layer Information | | | | | | | |
|------------------------|-----------|-----------|--------------------|--|---|---|----------------------|
| Layer | Boundary | | Soil Texture Class | Classification | | Saturated hydraulic conductivity micro m/sec | Soil Reaction (pH) |
| | Upper | Lower | | AASHTO Group | Unified Soil | | |
| 5 | 42 inches | 59 inches | fine sand | Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils. | FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt. | Max: 141 Min: 42 | Max: 8.4 Min: 7.4 |

Soil Map ID: 2

Soil Component Name: Lagunita

Soil Surface Texture: sand

Hydrologic Group: Class A - High infiltration rates. Soils are deep, well drained to excessively drained sands and gravels.

Soil Drainage Class: Excessively drained

Hydric Status: Unknown

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

| Soil Layer Information | | | | | | | |
|------------------------|----------|-----------|--------------------|---|--|---|----------------------|
| Layer | Boundary | | Soil Texture Class | Classification | | Saturated hydraulic conductivity micro m/sec | Soil Reaction (pH) |
| | Upper | Lower | | AASHTO Group | Unified Soil | | |
| 1 | 0 inches | 1 inches | sand | Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand. | COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand. | Max: 141 Min: 42 | Max: 8.4 Min: 7.4 |
| 2 | 1 inches | 59 inches | loamy sand | Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand. | COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand. | Max: 141 Min: 42 | Max: 8.4 Min: 7.4 |

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Map ID: 3

Soil Component Name: Carrizo

Soil Surface Texture: extremely gravelly sand

Hydrologic Group: Class A - High infiltration rates. Soils are deep, well drained to excessively drained sands and gravels.

Soil Drainage Class: Excessively drained

Hydric Status: Unknown

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

| Soil Layer Information | | | | | | | |
|------------------------|-----------|-----------|-------------------------------|---|---|---|----------------------|
| Layer | Boundary | | Soil Texture Class | Classification | | Saturated hydraulic conductivity micro m/sec | Soil Reaction (pH) |
| | Upper | Lower | | AASHTO Group | Unified Soil | | |
| 1 | 22 inches | 59 inches | extremely gravelly sand | Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand. | COARSE-GRAINED SOILS, Gravels, Clean Gravels, Well-graded gravel. COARSE-GRAINED SOILS, Gravels, Gravels with fines, Silty Gravel. | Max: 141 Min: 48 | Max: 8.4 Min: 7.4 |
| 2 | 1 inches | 22 inches | extremely gravelly loamy sand | Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand. | COARSE-GRAINED SOILS, Gravels, Clean Gravels, Well-graded gravel. COARSE-GRAINED SOILS, Gravels, Gravels with fines, Silty Gravel. | Max: 141 Min: 48 | Max: 8.4 Min: 7.4 |
| 3 | 0 inches | 1 inches | extremely gravelly loamy sand | Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand. | COARSE-GRAINED SOILS, Gravels, Clean Gravels, Well-graded gravel. COARSE-GRAINED SOILS, Gravels, Gravels with fines, Silty Gravel. | Max: 141 Min: 48 | Max: 8.4 Min: 7.4 |

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map

Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA

Telephone: 877-336-2627

Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005, 2010 and 2015 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Riparian Vegetation Associated with Perennial Waters

Source: State Land Department

Telephone: 602-542-4094

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

Arizona Well Registration Database

Source: Department of Water Resources

Telephone: 602-771-8535

The Wells database contains all wells registered in the state.

Agency: Department of Environmental Quality

Telephone: 602-771-2300

OTHER STATE DATABASE INFORMATION

Oil and Gas Well Database

Source: Arizona Geological Survey

Telephone: 520-770-3500

This database contains Oil and Gas wells in the State of Arizona. Includes all wells that have been permitted by the State Oil and Gas Conservation Commission (OGCC). Gas wells include natural gas, helium, and carbon dioxide wells.

RADON

State Database: AZ Radon

Source: Arizona Radiation Regulatory Agency

Telephone: 602-255-4845

State Indoor Radon Survey

Area Radon Information

Source: USGS

Telephone: 703-356-4020

The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones

Source: EPA

Telephone: 703-356-4020

Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Geotechnical Testing & Inspections were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Certified Sanborn Results:

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available business directory data at approximately five year intervals.

RECORD SOURCES

The EDR City Directory Report accesses a variety of business directory sources, including Haines, InfoUSA, Polk, Cole, Bresser, and Stewart. Listings marked as EDR Digital Archive access Cole and InfoUSA records. The various directory sources enhance and complement each other to provide a more thorough and accurate report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer.

RESEARCH SUMMARY

The following research sources were consulted in the preparation of this report. A check mark indicates where information was identified in the source and provided in this report.
