

ATTENTION SHOOTERS!

**Shooting is not permitted in
all open areas.**

**Do you know whose land you
are shooting on?**

Please visit www.azland.gov to use the interactive parcel viewer. You can determine land ownership in the area where you shoot. If managed by a governmental agency, contact that agency to determine if shooting is allowed. If it is private property, be sure to ask permission from the land owner. Littering is never permitted so please remove all target materials and shell casings after you are finished. Thank you for your cooperation in helping to preserve and maintain our open lands!
